Are you looking for an Ativa paper chopper for your home or office? But would you like to learn more about the brand before you buy a certain model? Then you should read my review on Ativa shredder models and the brand in general. You can read what the Ativa brand offers you and what are the advantages compared to other brands. In accordance with other reviews of Ativa Shredder and mine, I will assure you which model is best for you in my opinion and we hope to assist you with the decision to purchase it. The benefits of Ativa Paper Schroeder's simple use with the auto function of the Ativa brand makes their models with automatic function. This is very important in the office when you don't want to waste time pushing all kinds of buttons. Simply insert the paper, and the grinding starts automatically. Automatic stop occurs when the device is overloaded, which prevents traffic jams. Anti-jam technology if paper tubes happen, some shredding system has an automatic reverse function which is very useful because you don't have to clean the tubes manually. This makes chopping even easier and faster. Engine Longevity All models are equipped with thermal protection, which is very important when the device is running all day in the office. When the engine overheats, the system automatically shuts down the device so that the engine can cool down. This lengthens the life of the engine. You are safe from injury Great handy features that the brand offers advanced technology systems that ensure your safety while shredding. You can be sure that there will be no injuries when using Schroeder Ativa. High level of security and security lock If you need to cut a very confident Dana, this brand is right for you. Ativa micro-cut models have the highest level of security because the shreds are the smallest, but ativa's transverse shredders also have a high enough level of security to grind reliable data. Ideal for home, small and medium office Ativa paper shredder ratings and Ativa reviews show that the brand offers great models that have enough power and a strong engine with great additional features. They provide easy and quick shredding documents from your home or office Guarantee Brand offering at least 1 year limited warranty on all parts of the devices. In this way, you can replace parts if there is damage caused by the situations described in the included user instructions. Best Ativa Paper Schroeder Reviews Ativa 8-list Micro Cut Schroeder This Ativa micro shredder can cut up to 8 sheets at once during automatic grinding. It can cut down on all types of documents that you can find in your home or office. You don't need to remove clips or staples from paper when shredding, which is very convenient for the user. Aside from the paperwork, this Ativa 8 sheet shredder will shred credit cards too. It has channel for cards and you have to put them manually in it, one by one. Pages are carved into themicro edge, so security is safe high enough to cut confidential information. Shreds are 0.2 wide and 0.39 long, so you can be sure that any content that is destroyed will be unreadable. This Ativa micro cut shredder is great because small shreds take less volume in the bin than transverse shreds or strips cut shreds. So even if the bin is only 1.32 gallons big, it won't get full so fast. There is no indicator for a complete bunker, but there is a beautiful transparent window design that will help you keep track of the waste level. It also adds to the design, so this model will look attractive on your desktop. You can put it anywhere in your home or office because it sizes small and saving space. It's 13 wide, 8 deep and 10th high. Also, the design is very lightweight, so you can easily wear it from one side to the other. Weight is only 18.43 pounds. It doesn't have wheels, but it's easy to transport anyway. Grinding very quickly, from 6.23 feet per minute. The blades are covered and there are sensors in the entry slot that automatically stop chopping if your hand touches them. In addition, the shredding begins automatically when the paper is found. But it will stop if the device is overloaded with paper, which prevents paper jams. When shredding, you can lock the camera if you want to keep your documents safe. An additional great feature is the overheating protection, which turns off the system if the engine gets too warm due to long-term operation. The LED sensor shows when the device is on. All parts are covered by a one-year limited warranty. Space saving and lightweight design of high-security fast work protection against overheating and sensors Cons: no wheels no full bin detector is a shred of CDs and DVDs Ativa 10-list Micro-Cut Shredder Unlike the previous model, this one has some advanced features. There is an LED light that shows you when the bin is full, so you don't have to track it through a transparent window. This greatly simplifies maintenance. Ben has a capacity of 3.8 gallons. In addition, in the case of paper jams, this system has advanced jam control technologies. You don't have to intervene because the device will automatically reverse the blades that will clean the jam and the grinding will continue. Unlike the previous model, this one has a capacity of 10 sheets, which is great because it takes more paper at once when shredded automatically. The paper feed is 8.66 inches wide. The blades will cut paper clips and staples, so you don't have to remove them from the documents. In addition to junk mail, documents and other documents, this Active 10 sheet chopper can destroy credit cards. It has a special slot for them and you have to put them According to other Ativa 10, sheet micro cut shredder reviews, it has one of the highest levels of security. This way you can cut your personal information and other sure data without worry. The shreds are 0.16 wide and 0.47 long, making them very small and unreadable for everyone. The grinding is 6.23 feet minute fast, which is the same speed as the previous model. This model also has safety features such as hand sensors in the cutting area and covered blades. The documents are additionally protected by a thief with security locks, so you can be calm when important documents are shredded. The automatic stop/start feature makes using this Ativa shredder 10 sheet model very simple. The device is avoided by overloading, which reduces paper jam. In addition, the engine lasts longer due to thermal protection. It also has an additional LED power indicator and a 1-year limited warranty on all parts. The device is 17.5 high, 13.5 wide and 8.5 deep. It's a bit of a big model and it weighs more. But it has wheels that make it very mobile and portable. The full bin LED indicator has a higher level of security more bin and sheet capacity advanced anti-jam technology with thermal protection wheels and Sensors Taste Proful design. Micro-cut chopping for high safety. Cons Modest speed and paper capacity. Not designed for shredding compact tops, thicker envelopes or larger paper clips. Document shredders are not marked with their style and are usually constructed in such a way as to look as unobtrusive as possible. Not so Ativa 10M Shredder (\$179.99), which has a tasteful design replete with wide curves. If its color scheme - glossy black with matte-silver trim - doesn't fit into your office decor, for a little more you can get replacement panels in other colors. 10M (\$179.99 at Office Depot® and OfficeMax®) is a decent lightweight shredder that can nibble paper for micro-cut size for added security. 10M is best for personal or home use, or for easy scanning of confidential documents. Ativa is an Office Depot brand, and Ativa shredders are mainly sold by this network. Schroeder is compact enough at 22 at 15.5 by 13.5 inches (HWD), and has a handle in the back so that he can be easily rolled on four casters. At the top, just below the 9-inch-wide paper feed slot, are on, forward, and reverse buttons, as well as warning lights that go in case of paper jam or if the 6-gallon basket is full or open. The front and side panels are 10M black, but if you prefer a different color scheme, you can buy extra silver or white panels (\$29). Office Depot plans to add panels in additional colors. Like a micro-cut shredder, 10M cuts paper into very small shreds, about 0.5 by 0.16 inches, which is high enough security for all but the most sensitive documents. In addition to paper, it can cut small paper clips, staples and credit cards. It is not designed to grind compacts, large paper clips, window or insulated envelopes. It's quiet enough for a shredder. Office Depot gives 10M paper capacity 10 sheets; in my testing he held up to 13 sheets without interference. The speed of 10M is in tatters estimated at 6.7 feet per minute (fpm); I got it down at 7.5 fpm. This model can be shredded continuously for 20 minutes before a 40-minute cooling off period is required. Ativa 10m 10m more elegant than the Ativa Professional Plus HDPro 2000 editors' choice (\$279.99 at Office Depot® and OfficeMax®) and can grind paper into smaller pieces. The HDPro 2000 can fit more sheets (up to 22 at a time) and can grind for two consecutive hours without the need for a cooling period, as well as it can shred the compact somewhere and large paperclips. Staples 16-List High-Speed Cross-Cut Schroeder (\$199.99 in tquill) has nearly twice the speed and capacity of paper as 10M, and can shred large paper clips, compact files, and thick envelopes. Its downside is that it can grind continuously for just 8 minutes straight before it needs a 40-minute cooling. Ativa 10M Shredder is already sold at some Office Depot outlets and will be widely available at Office Depot on May 4th when it is officially rolled out. This is a good choice as an easier shredder if you need high security to destroy confidential documents, or if you want to add a little style to your office. 10M is one shredder you won't feel inclined to stash under the table when important guests come. See it \$179.99 at Office Depot® and OfficeMax® MSRP \$179.99 Plus Micro-Cut Shredding for High Security. Cons Modest speed and paper capacity. Not designed for shredding compact tops, thicker envelopes or larger paper clips. The Ativa 10M Shredder is a lighter shredder with a high level of security with a touch of style.
